

3ware 9690SA Chassis/Enclosure Compatibility List

February 2010 (http://www.3ware.com/support/sys_compatibility.asp)

Any special conditions or problem are noted below. Note: Chassis contain motherboard and drives (and may include expanders). Enclosures contain only drives and usually expanders (no motherboard).

¹We have tested and found the following SATA drives work on this chassis:

Hitachi UltraStar

Hitachi Deskstar

Seagate ES

Seagate ES2 with AN05 or SN06 firmware

If using a chassis with expander, then 9690SA firmware 4.06.00.004 or newer is recommended.
